**3. After you select 'Space Map' you are in outer space.
Navigating to the planet puts you back in your Starship.
You may enter the planet via the green beacon.**

Sector 15 , 15

If you travel beyond the planet, you will see
other beacons, such as N,S,E, and W. Each warps
you to a nearby  star  system.

Think of N,S,E, and W as North, South, East,
and West.   Yes  , there are no cardinal
points in space. This is just as a reference.
Initiating  a warp on a sectors 'N' beacon will
warp you to the next system's 'S' beacon.

An asterisc in the upper right part of the screen
while in space mode means that there might be
something noteworthy on the planet, such as a
large hub, a city, a dungeon, or something else.

"horizontally" to the next or previous
sector. (Along the x axis)

Using the S or N beacons moves you
"vertically" to the next or previous
sector. (Along the y axis)
